Fall 2025

Hello Friends and Partners!

Grace and peace to you from Columbus, Ohio. God has blessed us with some amazing weather. Thus, we have been trying to be out on the campus as much as possible.

Outreach at The Ohio State University and Columbus State Community College

Once again, God has done more than we could possibly imagine with students on both campuses. Since the end of August, we have seen over 80 people make first-time commitments to the Lord. Here are some pictures of our team talking with students.

I can say without hesitation that a harvest is happening. Granted, we have been seeing this trend for a while. We are just grateful to be a part of it. While there are many more names to list, please pray for these new students to become full-blown disciples of our Messiah, that they will read the Bibles we gave them, and follow through on the commitments they have made to a local church, baptism, etc.

Students Supporting Israel

Our work with Students Supporting Israel on campus is an ongoing effort. Most recently, the Students for Justice for Palestine have been very aggressive on campus. They set up a table saying "Intifada" and had a week-long campaign called "Break the Butchers," which is a call to hold the board of trustees accountable for supporting Israel in any way. They even had a post on their Instagram page saying "Death to the Occupation/Death to the Collaboration," which is basically calling for death to Zionists and anyone who supports them. Here are some pictures.

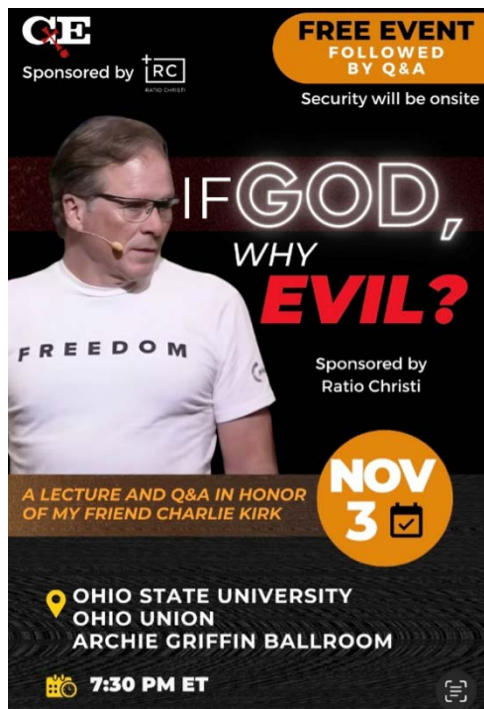

So, what are we doing? We are working together with Students Supporting Israel to try to get this group removed from campus. But this is a long-term effort, and we are compiling evidence and presenting it to the university. I even had a personal meeting with one of the members of the board of directors.

Please pray for the following:

- That all the efforts going forward will lead to real progress. There are always First Amendment/Free Speech issues that have to be dealt with.
- That our support and love for the Students Supporting Israel group will continue to bear fruit, and they will continue to see the love of Messiah in us.
- That the Students for Justice for Palestine group will see the truth and find the Messiah.
- Pray for the protection of Jewish students on campus.

Frank Turek Event/Aftermath of Charlie Kirk's Murder

Many have reached out to me, asking if I am concerned about safety. The answer is that we are more aware of it, but nothing is really going to change for us. This has only strengthened our commitment to discussions with students. It is indeed a battle of worldviews!

The day after Charlie was shot, a student told us on campus that he deserved it. I asked, "Why?" She replied, "Because he was a Nazi." People who use the words "Fascist" and "Nazi" have no idea what they are talking about.

As a mentor to Charlie, Dr. Frank Turek was very close to him. Sadly, he was about 15 feet away from Charlie when he was murdered. He was even in the car with Charlie after he was shot and was trying to revive him. He has been all over the news and spoke at the funeral.

Frank speaks on college campuses, and he has been to OSU several times. He will be back on November 3 to speak on the topic "If God, Why Evil?"

Please pray for a really good turnout for the event!
